

ISOCARE 2550

Mould Release Agent / Cleaner

Characteristics

ISOCARE 2550 is a release agent on a modified ester compound with a strong protective and at the same time gentle effect.

Technical Data

Additive:	Modified ester compound
Density (15 °C):	0,88 ± 0,02 g/cm ³
Colour and form:	light yellow liquid
Viscosity:	min. 8,5 mPa.s

Effects

- Formation of a protective film on concrete manufacturing equipment, machines and concrete formwork
- Enters into existing stains and dissolves them (strong concrete dissolving properties)
- Does not attack glass, metal paint, wood and clothing
- Very gentle on rubber and plastic
- Biodegradable
- Free from aromatics and heavy metals

Application

- Protection for ready-mix equipment and vehicles

Admission / Quality Control

- **ISOCARE 866** is permanently subject to internal factory production controls.

Usage

Clean equipment (removal of concrete and mortar remainders) and apply **ISOCARE 2550** thinly with sprayer covering still wet surface evenly.

For easy and economical application and oil mist free spraying we also have on offer our special pump package **ISOCARE ECO PRESS 3000**.

For removal of concrete remainders repeat treatment until concrete is "saturated". Existing concrete stains will soften or get crumbly and may be removed easily with a high pressure water-jet or scraper.

Storage

Storage life is **24 months** from date of manufacture if stored correctly (tightly closed at > +5 °C)

- Keep storage containers and tanks **tightly closed**
- Protect product from **frost, heat and direct sunlight**
